

Are you ready to have more stability for you and your family? Wondering if there will EVER be a way out of the daily/weekly worry and stress of getting yourself or your family through this life?

Circles Utah Valley is dedicated to empowering individuals, families and communities to resolve poverty and thrive. The Circles Initiative is designed to allow *you* to create your own path out of poverty...We understand that you don't need one more person in your life telling you what to do or how to do it. Circles believes that all participants are leaders on their own path out of poverty.

Without financial stability, we often face overwhelming and discouraging barriers, and we're left feeling helpless and alone. We know that building relationships between different walks of life is a crucial component of change. Circles is focused on long-term change for all of our participants, which is why we wrap a circle of support from our community around each participant with intentional friends/Allies.

Come join us at weekly gatherings designed to bring the community together to enjoy dinner, learn tools to improve your circumstances, develop future plans, and build friendships. All participants and volunteers in the Circles community get to know and inspire each other in an atmosphere of positive support. There is absolutely no cost for this program. It DOES take a desire and commitment for change.
